## INFLATION INSTRUCTIONS

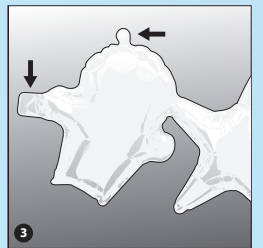

Inflate with air, tie together or leave separate, hang, and get the party started. It's that simple to bring SWAG to any celebration!

1 Insert the provided inflation tube into the valve opening, and blow into it until the garland is fully inflated. The valve will self-seal once the tube has been removed.

2 Using the tabs on the ends of the balloon garland, connect as many garlands together as you want using your choice of adhesive (glue dots, clear packing tape, etc.).

3 Using the enclosed ribbon and the tabs found on the top, hang the garland up however you desire.

**The Microfoil Garland Balloon can be easily refilled to be used over and over.**
